

STANDARDS OF LEARNING

CITY	NORFOLK	DATE	2012	SUBJECT	PUBLIC SCHOOLS
LEAVE THIS SPACE BLANK		ISSUES	UNDERFUNDED & UNSTABLE		

A vibrant and fully funded public school system can...

- A provide quality education for all students
- B attract families and businesses
- C grow the tax base
- D make Norfolk a nicer place to live
- all of the above

We believe that strong schools are the city's social and economic foundation, and that strengthening the schools will strengthen Norfolk. Public education affects all of us – from the quality of our neighborhoods, to the appeal of our city for families and businesses. Strong schools enhance city revenues and the retention of our best and brightest. When Norfolk's public schools succeed, Norfolk gains.

Norfolk GAINS is a community group for all Norfolk residents to raise awareness about the value of public education. Our goal is a vibrant and fully funded public school system.

Norfolk's schools face many challenges, but the good news is – with enough support, we can overcome obstacles and build a brighter future for our children and our city.
